

## Environmental, Social and Governance (ESG) Affects All Aspects Of Your Business – Are You Ready?

ESG is pervasive within all organizations and affects all companies in every industry.

### ESG Strategy and Roadmap

CFGI can help you develop an ESG strategy, perform peer benchmarking, create implementation roadmaps, analyze key business drivers and assess current capabilities against stated goals.

### Technical Accounting and Reporting

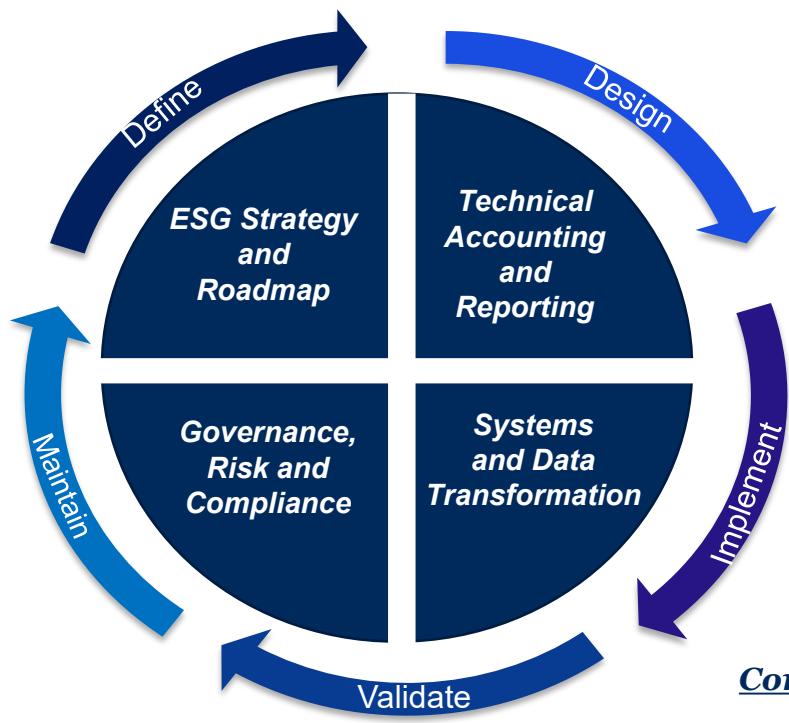

CFGI can help you develop, implement and streamline your ESG reporting processes to ensure compliance with regulatory reporting requirements and voluntary disclosure objectives. We can also help you identify and manage accounting ramifications of ESG strategies.

### System and Data Transformation

CFGI can help you create scalable ESG processes, including establishing new infrastructure and data management systems. We can also help you automate modeling, data gathering and reporting by leveraging emerging technologies and tailoring them to your needs.

### Governance, Risk and Compliance

CFGI can provide or enhance current risk assessment and ESG governance policies, procedures and internal controls. We also assist with cybersecurity, data governance, privacy and robotic process automation activities.

The impact of ESG stretches beyond accounting and reporting to the key business decisions a company makes. CFGI's financial, business and technological acumen and advice reflect both technical expertise and a practical, hands-on approach. There is no one-size-fits-all solution; CFGI can establish a cross-functional team that addresses an organization's ESG-related goals.
